

NAMAN POLYBOARD™

Unmatched quality, durability,
and innovation for a lifetime
of growth.

About Us

Naman Steels has been a trusted name in the steel industry for over 25 years, delivering excellence and reliability across markets. Building on this legacy, we introduced Naman Polyboard™, offering PVC Foam Boards and WPC 3-Layer Co-Extruded Boards, which have gained strong acceptance in the market over the past two years.

Now, we have expanded our product range with Laminated PVC boards, Glossy Acrylic Laminated PVC Boards, and UV Wall Panels all crafted with the highest quality standards. With a commitment to durability, innovation, and growth, Naman Polyboard™ continues to set new benchmarks in the industry.

Uncompromising Quality for Lasting Growth

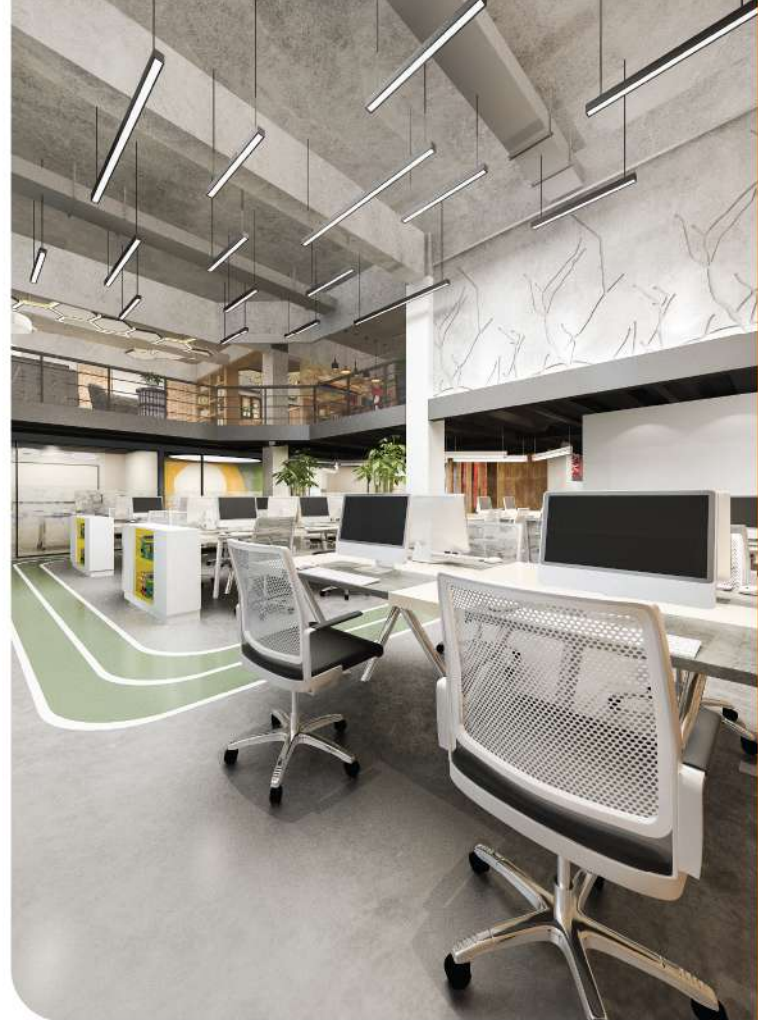

With a focus on continuous growth and innovation, Naman Polyboard™ is dedicated to providing premium solutions for modern interiors and exteriors. Our products are designed for long-lasting performance, ensuring resistance to moisture, termites, and environmental wear. Packaged securely in carton boxes, they are easy to handle and transport, making installation seamless and efficient. As we expand our offerings, we remain committed to delivering the best in quality, durability, and design, empowering our customers to build with confidence.

INNOVATING FOR A SUSTAINABLE FUTURE

At Naman Steels, we believe that growth comes from constant innovation and a commitment to excellence. With our expanded product line, including Laminated PVC boards, Glossy Acrylic PVC Boards, and UV Wall Panels, we continue to set new benchmarks in quality and durability. Each product is designed to meet the evolving needs of modern interiors while ensuring long-lasting performance. As we move forward, our dedication to delivering the best-in-market solutions remains unwavering, fostering growth and trust with every innovation.

AEO-certified, ensuring secure, compliant, and efficient international trade in line with global customs standards.

SGS-certified WPC boards ensure quality, safety, and reliable performance.

Engineered for excellence, Naman Polyboard™ offers unmatched durability, style, and performance built for a lifetime of growth.

NAMAN POLYBOARD™ PVC FOAM BOARDS

Naman Polyboard™ PVC Foam Boards are designed for growth in the modern construction and interior industry. With densities ranging from 0.45, 0.55, 0.60, and 0.70, these boards provide exceptional strength, stability, and versatility. Whether for furniture, wall cladding, or commercial applications, they offer a lightweight yet durable alternative to traditional materials.

Engineered for long-lasting performance, Naman Polyboard™ PVC Foam Boards are waterproof, termite-proof, fire-retardant, and fungal-resistant, making them ideal for humid and challenging environments. Their smooth, uniform surface allows for effortless cutting, shaping, and customization, enabling designers and craftsmen to bring their creative visions to life.

VERSATILE DENSITY OPTIONS

Available in 0.45, 0.55, 0.60, and 0.70, ensuring the right strength for every application.

With a range of density options to suit diverse applications, these boards eliminate the need for additional treatments or laminations, reducing time and labor costs. Their balanced durability and finish make them a preferred choice for interior and exterior uses, ensuring that projects stand the test of time while maintaining aesthetic appeal.

To ensure safe handling and easy transportation, Naman Polyboard™ PVC Foam Boards are securely packed in carton boxes, preserving their quality and integrity. Designed for growth and innovation, these boards continue to redefine industry standards, providing a smart, reliable, and efficient solution for every project.

0.55

0.60

0.70

Available in multiple densities for superior strength and versatility.

LOW MAINTENANCE

Resistant to water, termites, fire, and fungi, making it a long-lasting, worry-free solution.

EASY TO WORK WITH

Can be cut, shaped, and customized effortlessly for both interior and exterior projects.

CONVENIENT PACKAGING

Comes in carton boxes for safe transportation and preserved quality upon delivery.

NAMAN POLYBOARD™

WPC - CO EXTRUDED
3 LAYERED BOARDS

Engineered for unmatched durability, Naman Polyboard™ WPC Co Extruded 3 Layered Boards are crafted with advanced co-extruded 3-layer technology, ensuring superior strength and resilience. Designed to cater to diverse applications, these boards come in densities of 0.55, 0.60, 0.65, and 0.70, providing the perfect balance of flexibility and sturdiness. Whether for interior or exterior use, these boards promise lifetime durability, making them the best in the market.

CO-EXTRUDED 3-LAYER STRENGTH

Advanced triple-layer technology ensures superior rigidity and resilience, making it ideal for high-load applications.

Built to withstand moisture, termites, fire, and fungi, our WPC Co Extruded 3 Layered Boards eliminate the need for frequent replacements, fostering long-term growth and sustainability. Their high-load-bearing capacity makes them ideal for furniture, wall cladding, and modular interiors. Unlike traditional wood, they do not warp, crack, or deteriorate over time, ensuring lasting strength with minimal maintenance.

With a smooth finish and excellent workability, these boards offer effortless installation and adaptability. Skip the hassle of additional surface treatments—our WPC Co Extruded 3 Layered Boards come ready to use, reducing labour and time while enhancing project efficiency. Their exceptional density and impact resistance make them a trusted choice for architects, designers, and builders.

REPLACEMENT OF WOOD

For safe handling and preserved quality, Naman Polyboard™ WPC Co Extruded 3 Layered Boards are securely packed in carton boxes, ensuring damage free delivery. Elevate your projects with a material that not only enhances aesthetics but also drives sustainable growth in construction and interior design.

ECO-FRIENDLY & SUSTAINABLE

Made from wood-polymer composite, these boards promote green building practices while offering more strength than wood without deforestation.

CONSISTENT DENSITY & STABILITY

Available in 0.55, 0.60, 0.65, and 0.70 densities, ensuring uniform strength for all interior and exterior applications.

WEATHER & CHEMICAL RESISTANT

Withstands UV exposure, humidity, and harsh chemicals, making it a long-lasting choice for both residential and commercial spaces.

0.55 Density	08 mm 12 mm 17 mm
0.60 Density	17 mm
0.65 Density	17 mm
0.70 Density	17 mm

WPC CO-EXTRUDED 3-LAYERED COLOUR BOARDS

Naman Polyboard WPC Colour Co-Extruded Boards are engineered for superior strength, making them a perfect alternative to traditional wood. With a solid core that matches the outer layers in color, these boards offer a uniform look with long-lasting durability. Their advanced composition ensures high resistance to wear and tear, making them ideal for both interior and exterior applications.

From elegant furniture and cabinetry to outdoor decking and cladding, Naman Polyboard WPC Boards offer limitless possibilities. Their all-through color ensures that even after cutting or shaping, the rich finish remains intact, eliminating the need for additional painting or polishing. This makes them the ideal replacement for wood, combining strength with beauty in every application.

Built to withstand extreme conditions, these boards come with an impressive 25-year warranty, ensuring they remain as strong and visually appealing as the day they were installed. Completely fire-retardant, termite-proof, and waterproof, they require minimal maintenance and outperform conventional wood in every aspect. Whether exposed to harsh weather or high-traffic areas, they maintain their integrity and aesthetics.

SEAMLESS STRENGTH WITH LASTING COLOR

Superior strength with uniform color throughout – a perfect wood replacement for both indoor and outdoor applications.

NAMAN POLYBOARD™

Laminated PVC boards *Laminates*

Designed for durability and aesthetics, Naman Polyboard™ Laminates offer a perfect balance of style and strength. With a medium-gloss finish, these premium PVC foam boards enhance interiors with vibrant design options.

Crafted with 0.60 density and 17mm thickness, Naman Polyboard™ Laminates are designed for exceptional strength and longevity. These termite-proof, waterproof, fire-retardant, and fungal-resistant boards ensure high durability while maintaining a sleek, medium-gloss finish. Available in a variety of designs, they add a refined touch to kitchen interiors, cabinetry, wall paneling, and interior designs. With export-quality standards, they offer a perfect blend of style, reliability, and long-lasting performance.

HIGH DURABILITY

Waterproof, termite-proof, fire-retardant, and fungal-resistant for long-lasting performance.

MEDIUM GLOSS FINISH

Strikes the perfect balance between elegance and subtle sheen.

UV WALL PANELS

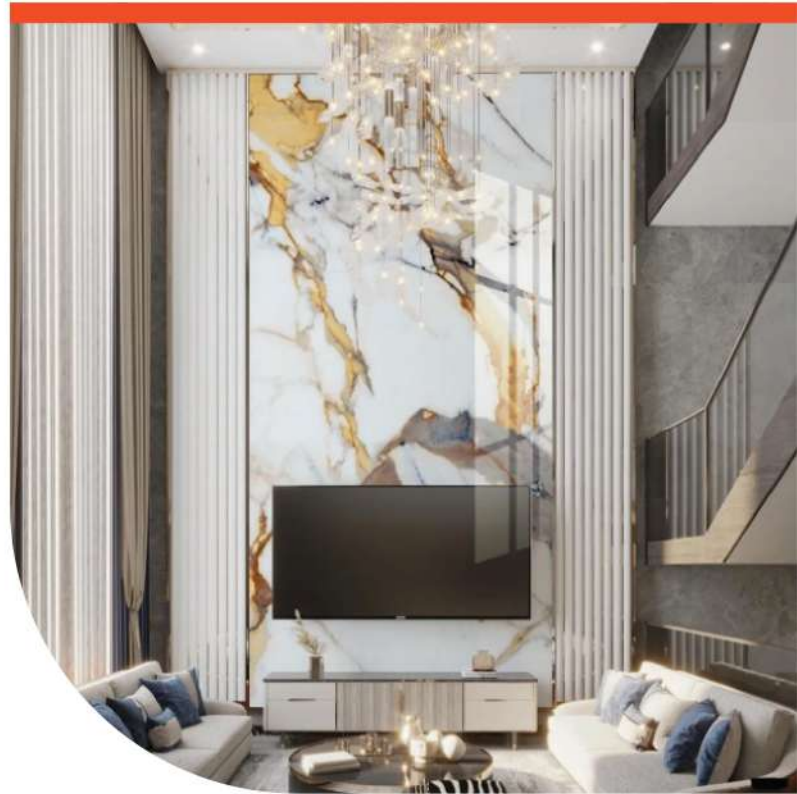

Naman Polyboard™ UV Wall Panels are designed to transform interiors with durability, elegance, and unmatched protection. Engineered with a high-quality UV coating, these panels resist fading, scratches, and wear, ensuring that your walls maintain their vibrancy and shine for years. Crafted for both residential and commercial spaces, they bring effortless style and functionality to modern interiors.

Built to support sustainable growth, our UV wall panels come in a variety of designs and finishes, offering endless possibilities for creative spaces. The advanced UV-resistant technology ensures color retention and surface durability, making them a preferred choice for luxury interiors, feature walls, and contemporary decor.

EFFORTLESS MAINTENANCE

Lightweight yet durable, the panels are easy to install, reducing labor time and making renovations faster and more efficient.

SEAMLESS AESTHETIC APPEAL

Designed for modern interiors, these panels provide a smooth, uniform finish that enhances the beauty of any space.

With multiple size and pattern options, these panels provide seamless installation, reducing maintenance efforts while enhancing the overall aesthetic of any space. Their waterproof, termite-proof, and fire-retardant properties guarantee long-term protection, making them ideal for high-traffic areas, hospitality settings, and premium home decor.

Packaged securely in carton boxes to ensure safe transportation and easy handling, Naman Polyboard™ UV Wall Panels are a symbol of quality and innovation. Whether it's for home renovation or commercial expansion, these panels provide a growth-driven solution, offering style, strength, and sustainability in every application.

QUICK & HASSLE-FREE INSTALLATION

Lightweight yet durable, the panels are easy to install, reducing labor time and making renovations faster and more efficient.
